THE HARBOR.

We mentioned briefly on Saturday morning the action taken by the Common Council on the resolutions in relation to the subject of the Harbor As the subject is one of great importance to the city we have taken some pains to obtain the data to set forth to our readers more fully the present condition of things

Messrs Hartel Ludington, Mitchell and Mallory of the Harbor Committee, reported that they had conferred with Mr Hawley and the City Surveyor and were satisfied that the actual work done on the Straight Cut only amounted to $20,000 and that the Contractor was unable to finish the work by the time specified in his contract That Mr Hawley introduced Mr C D Burton who comes with excellent recommendations and proposes to take Mr Hawley's two contracts off his hands, his propositions being in substance, as follows

Mr Hawley proposes to sell and assign to Mr Burton both contracts, and to sell his dredging implements if the city will consent

Mr Burton proposes to take the contracts and finish the Harbor by the 1st July, 1856, on condition that the city makes the price $59 000, which is payable with 7 per cent interest in N. Y, semi-annually, the estimates to be made monthly and 15 per cent from them, the $21 000 paid on account to be deducted from the total amount, one twelfth each month

Mr Mitchell said it will do the Dredging Contractor and contract the $16 000 paid Hawley one month's work, and the balance the city owes Mr Burton show $10 000

Mr Mitchell Reg reasonably for the fulfillment of the contract He wants the guarantee of the city and will pay the expenses of the engineer and what else is right

Mr Mallory said he thought that they should be liberal with the contractor as to payments

Mr Burton thinks the whole subject to the Common Council

A communication was presented from Messrs Martin & Co of this city the following proposition

To the Common Council

The undersigned Harbor at the Straight Cut propose to put down and haul in cash on the Hawley's piles or take the work on the U S contract plan at proportionate prices

Hauling the river 30 cts per cubic yard

Piles in City bonds at par, and delivered before hauling for any pay They agree to do any or work done according to the specifications, and will give security for fulfillment of the contract

Mallory presented resolutions as follows

Resolved by the Common Council agree to the acceptance by Mr Hawley of his contract to Mr Burton upon his giving security to the city, which is now still liable on his bonds

That the work be executed to July 1st, 1856

That the city will pay Mr Burton an extra sum of $19,000 on the completion of his contract so extended

That the Mayor take measures to obtain the Government dredge if possible, at an expense to the contractor may use it, the contractor to pay the expenses of using said dredge

An amendment Ald Hadley moved to refer the City Attorney, to report on the legality of the proposition

The resolutions were laid over to the meeting of Monday evening, as to give time for the matter to be better before it, (and, if possible assist the certainty, as we understand arrangement with the present contractor for his tools and materials, it being their object to close the bargain

Ald Hadley said the liability of Mr Hawley's bondsmen was a matter of considerable doubt, and that it would be under existing circumstances unjust to them though we doubt not they would be acquitted entirely, would be a matter of litigation and expense, and that is just and right—that the security of the city should be increased

Ald Mallory said that a difficulty may arise between the city has authority to issue bonds while the assignment of $10000 if with Col Barton and Martin & Rogers. But the resolutions proposes to relieve the city as we understand entirely from any responsibility

Ald Hadley moved to refer the matter to the people of the city for their action in favor of loaning to the Milwaukee and Horicon Railroad Company the amount of $166 000 Interest never yet refused a needful public improvements, nearly unanimous vote The N W from Horicon through Fond du Lac and beyond, is being pushed and the first section from Horicon to Waupun is fully graded to less than a mile of the La Crosse road will be completed in Jan, and the road of the Mil and H. R R Co to Fond du Lac will be finished and iron immediately —

Ald Mallory moved to refer the question for the loan of $166 000 to the people of the city

THE HARBOR.

We mentioned briefly on Saturday morning the action of the Common Council on the several propositions in relation to the subject of the Harbor As the subject is one of vital importance to the city we have taken some pains to obtain the data to set forth to our readers clearly the present condition of things

Harriet Ludington, Mitchell and Melvor the Harbor Committee, reported that they had conferred with Mr Hawley and the City Surveyor and were satisfied that the actual work done at the Str'gnt Cut only amounted to $20,000 and that the Contractor was unable to finish the work by the time specified in his contract That Mr Hawley introduced Mr C D Barton who comes with excellent recommendations and proposes to take Mr Hawley's two contracts off his hands, his propositions being in substance, as follows

Mr Hawley proposes to sell and assign to Mr Barton both contracts, and to sell his dredging machine to the city will consent

Mr Barton proposes to take the contracts and finish the Harbor by the 1st July, 1856, on condition that the city make the price $59,000, which is payable 17 per cent interest in N. Y. semi-annually the estimates to be made months in advance, and deducted from the total amount, one twelfth each month

Mr Barton will do the Dredging Contract and complete the $10,000 paid Hawley one month after work, and the balance by the 1st Jan Mr Barton offers $10,000 additional for the 1st Jan Reg reasonably, for the finishing of the contract He wants the Harbor finished and will pay the expenses of the Harbor Committee and Mr Hawley when they look at the other dredge at work

The committee say that they notice that this proposition asks for an extension of time for one year and an additional price of $10,000, while Mr Hawley is to take care of Hawley's liability That $21,000 has been advanced by the city on the work, and only $5000 of work is now while although several have been estimated for materials, paid for which the city has a claim upon the contractor had mortgaged them as security for money on his bonds) The committee say further that they think the proposition fully and honorably with the contractor as to payment of the whole subject to the Council's action

Resolutions were presented for Messrs Martin and Hanchett embodying the following proposition for Council

That the Harbor at the Straight Cut be completed by boats and half in cash on the 1st of July, 1856, or take the work on the U S appropriation proportionate prices

That they will pay 7 per cent on the yard for the City bonds at par, and deduct the balance for any pay They will pay if any for work done according to the estimates, and will give security for fulfilment of the contract

The Harbor Committee very presented resolutions in favor of

That the Common Council agree to the assignment by Mr Hawley of his contract to Mr Barton, he giving security to the city, for which still liable on his bonds

That the time be extended to July 1st, 1856

That the city will pay Mr Barton an extra sum of $10,000 on the completion of the work to contract so extended

That the Mayor take measures to obtain the Government dredge if possible, at an expense that the contractor may use it, the cost in case of using said dredge to be deducted from the amount

Alderman Ald Hadley moved to refer the City Attorney, to report at the meeting on Monday evening, as to the liabilities involved in the proposed assignment of The motion prevailed

The Common Council meets to-night and it will go in soon before it We trust the citizens will have sufficient consideration to attend promptly, and if Col Hawley's proposition is not best before it, (and, we think after the certainty, as we understand arrangement with the present holder of the tools and materials, it will be) then to close the bargain with Mr Barton and relieve Mr Hawley's embarrassing circumstances at once, though we doubt not he will be appointed citizen, would do that is just and right—the responsibility of the city should be removed that a difficulty may be settled that the city has authority to issue bonds while the assignment of $21,000 if with Col Barton with Martin & Reeve. But those proposed to relieve Hawley are not could easily be done authorizing the additional bonds

Milwaukee and Horicon Rail Road.

We are glad to see the people of this city manifesting a disposition in favor of loaning to the Milwaukee and Horicon Rail Road the amount of $166 000 Indorsement never yet refused a reasonable public improvements, nearly unanimous vote The N W from Horicon through Fond du Lac and beyond, is being pushed and the first section from Milwaukee to Fond du Lac is fully graded so less than 14 miles of the Fond du Lac road will be ironed and it is the understanding that the Land Co R R Co to commence iron immediately — the bonds for the loan of

The Portland Riot

In one of the telegraphic messages from Portland have given fully some prominent the recent occurrences in that city as we learn from the local papers The *Argus* yesterday full account of the whole matter, and we make up the following condensed statement of the facts from its article

The *Argus* says as early as the third day of May the Board of Aldermen passed a vote appropriating a room in the City Hall building to the use of the agency for the sale of liquors and chose a committee of three consisting of the Mayor and Aldermen Brooks and Carleton to make all necessary arrangements for putting the agency into operation

To facilitate matters against them as when the room should be ready and as being sure to with the liquor of their duties the committee negotiated with an importer in New York for the purchase of liquors in the original packages and up in what capacity they acted The liquors were finally sent invoiced to the City Agency of Portland" which invoice has been accepted by the Aldermen Whatever has been done by Mr Dow has been done under the advice of the Board of Aldermen passed May 3, 1855 as a member of the committee appointed by the Board, and in conjunction with the other members

He neither bought the liquors on his own account nor paid the money for them nor kept them in his own possession—but he acted throughout as a member of this committee regularly appointed by the Board of Aldermen Thus the liquors were obtained in the manner required by law, were received and taken in possession as the law provides and for the use and benefit of the city

The liquor being so purchased the opponents of the law commenced at once to inflame the minds of those whom their deception could influence with the assertion that Mayor Dow while enforce ng the law against *them* was himself purchasing a stock of liquors to go into the business Forthwith, some of them got up the necessary complaint under the law, made affidavit that they believed this to be the case and demanded a warrant for the seizure of the liquors The Judge refused to give the warrant to *them* but placed it in the hands of a city Marshal who took possession of the stock

Here follows the account from the *Argus*

At an early hour in the evening there was a large crowd around the building A little after eight o'clock the Marshal with some seven or eight police armed with pistols, entered the room where the liquors were stored About half past eight the mob began to throw stones against the door on Congress street breaking out the glass in the upper part of the door The Marshal then gave orders to the police to keep on either side of the door, so as to be out of reach of any stones that might come in and not to fire their pistols until some one should attempt to enter

In the meantime the marshal repeatedly cautioned the mob to desist upon peril of their lives, and in the course of the evening they were ordered to disperse by the sheriff of the county and also by the Mayor

At length one man, who appeared to be a ringleader in the mob came to the door, swearing horrible oaths, and using most insulting and violent language towards the police in the room — He called them a pack of damned cowards" challenged them to fire, and twisted them by saying that they did not dare to fire Then he hurraed the mob, urging them to come on, assuring them that there was no danger, that the police were cowards, and had only blank cartridges and did not dare fire upon them even if they had ball The marshal again warned him, upon peril of his life, not to attempt to enter the room But under his leadership the mob made a violent rush for the door which however proved too strong for them

The police then fired but manifestly aimed over their heads hoping to frighten, and thus avoid the necessity of killing This checked them for a few minutes, but the same voice was again heard rallying the mob assuring them that nobody was hurt, that they were only blank cartridges &c &c and another rush was made for the door one reaching in and attempting to unbar it The police then fired with effect

One man named Robbins, as we are informed —a mate of an Eastport vessel—fell dead or mortally wounded close by the door, and it is supposed he was the man who had been so busy in exciting the mob, as that time was not again heard during the evening

A military Company, the Light Guards was called out, and after being pelted with stones and some of them severely injured they were ordered to fire but did not do it and backed out, and retreated to their armory Another company the "Rifle Guard" was then called out. The *Argus* says

"They marched into the armory of the Light Gun de and took their guns, as (their rifles were without bayonets) secured some cartridges, and then marched down through the crowd and into the room through the door on Middle street Orders were then given for them to fire through the door on Congress street, in squads of four The order was executed with what effect we are not able definitely to state—but the report is that one man (an Irishman) was killed, and some six or seven wounded more or less severely

A few rounds, however sufficed to drive the mob from the door and gradually at about two o'clock the mob dispersed—leaving the police the military and city with rifles in quiet possession of the room, with a proud consciousness that they had nobly done their duty, and that law and order had prevailed against a lawless mob gotten up entirely without cause or provocation and as despicable in all its features as any that ever assembled on the face of the earth

WESTERN HARBORS—CHICAGO —The editor of the Kenosha *Telegraph* in the last number of his paper, thus discourses

The harbor at Chicago thanks to President Fillmore and kindred politicians, is little better than no harbor at all We happened to be there during the blow on Saturday last, and instead of finding vessels escape from the gale snug inside the harbor or running in, we found a number anchored outside in the lake, riding on with all the iron, and a number more beating about in the distance showing no disposition to risk the jaws of this improvement The Schooner Nicholas, of this place, with a large cargo of lumber, but a light draft she attempted to run in but she struck the bar at the end of the pier over which she was finally hauled by successive seas, her deck load, worth hundreds of dollars, being swept overboard and her yawl boat made kindling of, and herself saved from total wreck on the breakwater only by the strength of her hawsers and tackle This is an interesting state of affairs for a harbor whose commerce is not very much less than that of the chief seaport of the nation, and moreover in a fine commentary on that Presidential wisdom and patriotism which bestows $70 000 for the improvement of the Savannah river and withholds a paltry appropriation for this harbor for fear it will destroy the constitution and union

Latest Intelligence from the Sant.

FROM CHICAGO —The Superior, the first boat of the season from Chicago arrived last Monday morning loaded to her utmost capacity with freight and a large number of passengers As we suggested two weeks since the business which Chicago and the other ports on Lake Michigan may be id up with the Lake Superior region is such too valuable to be neglected and this fleet cargo attests the truth of the remark It was mostly made up of the meats flour and grains which the non-producers of the mining district want and which they can obtain nowhere else so well as at the ports on Lake Michigan We are glad to learn that the Superior will continue upon the route and we also hear that another steamer will in a few days go upon the route If persevered in a trade will soon spring up which will be to all parties concerned

CASSVILLE WIS —Eighteen or twenty years ago Cassville was a town of high expectations It was talked of locally as the future seat of Government of what is now Wisconsin and Iowa The proprietors expended a large sum of money in building a Hotel which was not need ed, since it was ascertained that Cassville was on the edge of two Territories instead of at the centre of the Wisconsin and Iowa were divided Upon this the owners of the property, who lived at the eastward disagreed, and those who would have purchased, could obtain no perfect title Recently, we understand, ex-Gov Dewey of Wisconsin, has become the owner of two thirds of the property, and all difficulties having been arranged with regard to titles, Cassville is in hopes to shew the footprints of a progressive destiny The site of Cassville is a fine one, and there is a rich back country valuable both for agriculture and mercury, which will make it a town of considerable commercial importance as indeed it is already —[Galena Adv

TIMBER IN ROCK COUNTY —Taking a drive recently through the eastern part of our county, we were gratified to perceive that the second growth of timber is rapidly developing itself so as to obviate the old objection to settling in the thinly wooded district of Wisconsin is greatly overcome In fact its astonishing to witness the advancement this growth has made during the past few years, and even where there were heavy forests of rather than young timber is presenting itself now thicker than the former We venture the prediction, that in ten years there will be more timber in Rock County and the counties adjoining than at present It is idle to say that wood is to be scarce for the growth is manifestly far greater than the consumption We must confess that we had adopted the common opinion that the present scarcity of timber was a serious objection to the settlement of parts of this country But the fact is, whole groves of beautiful young timber are appearing on lands that but a few years since were nothing but barren wastes We have noticed that portions of prairie adjoining woodland, which have been fenced and carefully guarded from fire for but a few years are now being covered with a fine growth of young timber —Beloit Journal

A NEW QUALIFICATION —The Legislature of Connecticut has agreed to the constitutional amendment that no one who cannot read shall be entitled to vote This is far more sensible than the property qualification, for all may compass this, and it besides it will act as a stimulus to the acquisition of a knowledge of reading, and thus promote two objects Unless a person can read he can not intelligently exercise the right of suffrage, and is at the mercy of others, and may be discovered and imposed upon by designing men The insisting upon his qualification, therefore is an actual blessing as well as a protection to the voter —[Chicago Democrat

NEW GOVERNMENT BUILDINGS —The story goes that the bids for the new Government Buildings in this city have all been rejected—and that nothing will be done about them this year The immense labor of definitely fixing upon the site for those buildings seems to have exhausted Uncle Sam and he requires a year's rest before he can begin the work What a precious old "slow coach" it is Private enterprise, with the same amount of means at its disposal would have had the buildings up and ready for use by next Spring

FOR COLLINGWOOD —The well known and favorite steamer *Lady Elgin* will leave this port on Wednesday morning at 9 o'clock for *Collingwood* calling at all the intermediate ports For passage apply to O D COLBY three doors from American Express Co Office on Huron Street

FOR BUFFALO —The *Forest Queen* will leave this afternoon for Buffalo, calling at all the intermediate ports For passage, enquire of John Griffin, near the American Express Co's Office on Huron Street

BOARD OF COUNTY SUPERVISORS —At the meeting of the Supervisors on Friday last, Ald Powers offered a resolution approving of the present system of supporting the poor of the county, as preferable to the town system, if properly administered Mr Howard of Lake, moved to lay the resolution on the table, which motion failed by a vote of 5 to 7

Ald HARTEL offered resolutions for a committee of three to prepare plans for additional buildings on the county farm, with specifications showing cost &c, to report at a special meeting on the 15th Carried, and Ald HARTEL, Powers, and Mr TOBIN were appointed as the Committee

This subject will then on Friday be a test of the disposition of the county members to make any additional accommodations at the farm

REAL ESTATE —CALEB WALL has an Auction Sale of valuable real estate this week, advertised for some weeks past We expect to see good prices realized

Next in order of dates, comes a sale of a large number of desirable lots on Jackson and Van Buren Sts, in the 1st ward by J H. CRAMPTON, on the 20th, and some people will be surprised at the prices which lots in that part of the city bring

D G. POWER adds to day a long list of lots to the property which he has for sale These who are looking for investments will do well to cut out the list

M & W R R EXTENSION —Stockholders in the Milwaukee & Watertown R R Co residing west of Watertown, will find a call upon them in our columns A pull together now!

IN JAIL —There are at present but twelve prisoners in jail, which number, with the exception of about one hour, is the least which at any one time has been confined there in nearly three years

A SHOWER.—Our city was visited by a warm rain on Saturday evening being the first genuine summer shower of the season The lightning played brilliantly off to the Southward and these was doubtless more rain in that direction

STEALING —A man was taken to jail on Saturday morning by dep Sheriff Wasson, charged with stealing from the American House

German Emigrant Aid Society

The agent of this Society in Milwaukee has been compelled twice to sue Messrs Kellogg & Strong Agents of Clements Line of Boats for unjust charges on emigrant freight In consequence Messrs K & S have given orders not to have any freight nor emigrant baggage put in their *Ditch propels* sent from Chicago to Milwaukee but to keep it at Chicago till the charges are paid to them in advance

As not only Emigrants but German Merchants receive freight by way of Chicago, mistakes must occur, and I therefore notify the public to take necessary steps, to secure themselves and the German population against the loss arising from the action of Messrs Kellogg & Strong CHARLES KNOBELSDORFF Agent

PLANTS IN A BED ROOM —A writer in the *Cottage Gardner* says that plants in a sleeping room are healthful, as they consume more vitalized air than they create, hence are good pur fiers.

DOESTICKS NOT DEAD —Mr M Thompson's alias "Doesticks" in a card dated Lone Harbor Michigan, denies that he has been shot or killed The whole affair was got up as an advertising dodge Many persons are now beginning to inquire, if "Doesticks" and "Damphool" are not one and the same person —[N Y MIRROR.

Clearly not—for "Doesticks" relies upon the "Damphools" to buy his forthcoming book

GOING WEST —On Thursday last a train of 4 wagons and about 40 head of cattle passed on their way to Minnesota It is strange to us that people will forsake the and fertile lands of Wisconsin for a chance in a distant county, where land is no cheaper, with no facilities for communication where mails reach them once in six months Why is not a home within half a day's drive of a Railroad station and a flourishing town worth just as much and just as attractive as one among Indians and rattlesnakes? We think that people who are obliged to go out Wisconsin for homes manifest symptoms of unmitigated greenness.—[Madison Patriot

MORMON EMIGRANTS —The steamer Amazon arrived about two o'clock yesterday from Pittsburg, and after discharging some freight, went over the falls bound for St Joseph, Mo The Amazon had on board 550 Mormon emigrants, in charge of Elders Barlow and Stevenson, going to Salt Lake. We went on board The majority of them were on the lower deck, and feeling some anxiety, we walked in that direction A Mormon guard had however been placed at the entrance, who refused us permission, to go back We did not ask the cause, but it was probably to prevent the women from seeing a handsome man.

The deck was crowded with men, women, and children, of all sizes and ages—the juvenile having by far the preponderance in numbers There seemed to be about six children to each woman, and there are four women to each man. We saw but three or four old females. The men looked very sullen and cross, the women appeared rather in low spirits and discontented, and the children kept up a continual bawling. They were all healthy looking and clean Nearly every woman carried a child in her arms and another by her side that was scarcely able to walk They were principally Scottish and Welsh and some few Swedish and French

There are 750 more at Pittsburgh awaiting for transportation, and we see from the New York papers that the ship Wm. Stetson has just arrived there with 293 more Other ship loads are said to be due There is a "Perpetual Emigration Fund" to pay the passage of poor Mormons to this country, and "Emigrant Agents" are stationed at various points in Europe, Asia and Africa, to facilitate the transit of the Latter Day Saints to the Great Salt Lake. This season the Liverpool agency has sent off over 3,000, of which above 1,100 were at the expense of the fund —[Louisville Journal, May 31

FREIGHTS.—We publish below a list of freight shipped by John Day & Bro, by the two last steamers, which shows that our exports are increasing rapidly A few years since, steamers counted almost entirely on freights brought to our docks, now, every vessel leaves loaded to her utmost capacity, and in many instances have been compelled to refuse freight

Shipped by the Steamer Michigan—1 875 bbls flour 425 bbls fish, 6 tons pot-ashes, 12 000 bus wheat 100 bbls bulk miscellaneous freight

Shipped by Steamer Cleveland—40 packages furs, 575 M shingles, 385 doz. pails, 353 nests tubs, 65 bbls fish, for Chicago —[Green Bay Advocate.

"TONY" AGAIN —We notice that R T Green, the "*Toby*" of Melville's "Typee," has left Sandusky, in company with a large body of emigrants, bound for Nebraska. He hopes there to meet with success and to establish for himself a fortune and a name. He is fully competent to succeed, if he will.—(Buffalo Democracy

The Catholic Council on the Temperance Question.

The Pastoral Letter of the Archbishop of Cincinnati, signed also by the Bishops of Cleveland Louisville, Vincennes and Covington, and the Vicar and Coadjutor of Michigan recently issued, contains the following passage

"In the ordinary discharge of our pastoral office, we, aided by our faithful clergy, have not ceased, beloved brethren to warn you earnestly against all sin and all scandal, and particularly against this horrible curse of intemperance, which is the fruitful mother of so many other evils of letting both the body and the soul In order the more efficiently to check the evil we strongly advise you to discontinue and discountenance together the practice of retailing intoxicating drinks as a means of obtaining a livelihood — We do not wish to pronounce that it is always sinful to engage in this traffic, but we feel it to be our duty earnestly to dissuade you from it as being dangerous to yourselves to the morals of your children and to others, to which it presents and often fatal temptations and as being finally both discreditable in public estimation and unnecessary as a means of obtaining a living"

RUSSIAN LOSSES —The Marquis of Lansdowne stated in the House of Lords during a recent debate, that he knew from authentic sources that just previous to the death of the Emperor Nicholas the official report of the Russian losses since the war began showed the loss of one hundred and seventy thousand men and that since that report was made the Russians had lost seventy thousand more making a total of two hundred and forty thousand As this statement comes from a British source, it must be taken *cum grano salis*

A FUNNY MISTAKE —Col Jeff Davis Secretary of the U S Treasury, came very near being arrested at Atlanta Geo for picking a traveller's pocket on board the cars The traveller pointed out two persons whom he suspected one of whom was Mr Davis The mayor came to the hotel in time to prevent the arrest

MARINE INTELLIGENCE

DECISION IN ADMIRALTY —The case of the owners of propel or *Fulton* against the respondent the owners of the schooner *C Reed*, to recover the damages occasioned to the former, by a collision between the two vessels, which happened on Lake Erie on the night of December 2, 1854, came before the U S District Court, in New York city Judge Ingraham presiding on the 1st inst The libellants claimed damages to the amount of $ 6000 We copy from the *Times*

Held by the Court that it was satisfied by all the witnesses who saw the collision, that it would not have happened if the schooner had kept her course and not port her helm.

That when a steam vessel meets a sailing vessel as in this case, it is the right and duty of the sailing vessel to keep her course and the duty of the steamer to avoid her, and to act upon the supposition that the sailing vessel will keep her course (10 Howard, 5-3)

That the propeller was not at fault in this rule, but was violated by the schooner without any good reason

That the rule that where two vessels meet each shall pass to the right, is not applicable in this case for two reasons—first, the two vessels were not on the same line, nearly so and second, the schooner had a privileged course, and was not bound to change it No harmless lee can be adopted, by which another and paramount rule will be violated, as the rule of passing to the right is adopted in this case upon the lee side of the rule laid down in 10 Howard

That the schooner therefore would be liable for the damages occasioned by the collision, and her owners at this time are also liable

That it was not intended by the act of Congress requiring bills of sale to be recorded, that the grantor in a bill of sale should be prejudiced because he neglected or refused to have it recorded A bill of sale is not a complete instrument and cannot be recorded until after it is delivered, and when delivered it is no longer in the control of the grantor, and the act was not intended to prejudice a grantor, because an act was not done which he could not do or compel to be done.

That Powell, Ramsdill and & Co, therefore, had no claim if they have any charge or control over the vessel, or to be interested in her nay gat on from the time of the delivery of the bill of sale

That the libel must therefore be dismissed as against them and the libellants must have a decree against Nathaniel Shaw alone for their damages—to be ascertained by the usual reference

On Monday the 25th day of June A D, 1855, between the hours of two and six o'clock in the afternoon, for the purpose of adopting or rejecting "An Ordinance authorizing an issue of City Bonds to the Milwaukee and Horicon Railroad Company" upon the ballots to be written or printed the words "For the Railroad Ordinance," or the words "Against the Railroad Ordinance"

By order of the Common Council

B WHITEHEAD, City Clerk

Milwaukee, June 8th 1855

AN ORDINANCE

Authorizing an issue of City Bonds to the Milwaukee and Horicon Railroad Company

The Mayor and Common Council of the City of Milwaukee do ordain as follows

Sec 1 Nor the purpose of aiding in the construction of the Milwaukee and Horicon Railroad, City Bonds to an amount not exceeding the sum of one hundred and sixty six thousand dollars may be issued and delivered to the Milwaukee and Horicon Railroad Company, upon the terms and conditions specified in "An act authorizing the City of Milwaukee to loan its credit in aid of certain Railroads, approved April 12, 1852, and in accordance with the provisions of the amendatory act approved March 31st, 1853 and on the terms and conditions hereinafter provided

Sec 2 Every bond issued under the authority contained in the preceding section, shall be made payable in twenty years from the date thereof, with interest payable semi annually at the rate of seven per cent per annum, and both principal and interest payable at the Bank of the Republic in the City of New York, shall be signed by the Mayor and countersigned by the Clerk of the Common Council, and the corporate seal of the city affixed

Sec 3 No bonds shall be issued to said Railroad Company until all the provisions relating to the bonds and securities to be given and furnished to said city, as provided in the aforesaid Act, shall be complied with on the part of said Company, or until such securities shall be furnished to said city as shall be satisfactory to the Common Council thereof

Sec 4 This Ordinance shall not be in force until submitted to the legal voters of the City of Milwaukee, at an election held for that purpose at the time hereinafter provided and adopted by a majority of the whole number of votes given at such election

Sec 5 An election shall be held on *Monday*, the 25th day of June, A D, 1855, between the hours of two and six o'clock in the afternoon of said day, at the places in the several Wards of the city, where the last elections were held, except in the Third Ward, in which said election shall be held at the Eagles House of Fire Company No 8, for the purpose of the adoption or rejection of this ordinance, and such election shall be conducted and the votes canvassed and returned in the same manner and by the same officers as at other city elections

Sec 6 On the ballots which shall be received by the inspectors of such election, shall be either written or printed the words, "For the Railroad Ordinance," or the words "Against the Railroad Ordinance"

Sec 7 At the next regular or special meeting of the Common Council after the returns of such election from the several Wards in the City of Milwaukee, are made to the City Clerk, the Common Council shall proceed to canvass such returns, and if it is found that a majority of the whole votes are in favor of this ordinance, it shall be the duty of the Mayor to make proclamation thereof in the official paper or papers of the city, and the said ordinance shall be in force from and after its first publication, subsequent to the date of such proclamation

Sec 8 It is hereby made the duty of the City Clerk to cause a certified copy of this ordinance, together with a notice of the time and place of holding the election specified therein, to be published in the official city paper or papers three several times, one of which publication shall be made in each of said newspapers at least two weeks previous to the time of holding such election

MYSTERIOUS DISAPPEARANCE AT ST LOUIS—We learn from the St Louis *Democrat* that on Saturday morning last, Mr E B Peck, a merchant at No 36 Commercial street, left his residence on Fifth street near St Charles, since when he has not been seen or heard of by any of his family or friends It is feared he has met foul play at the hands of some person or persons, who either had enmity against him or thought he had money in his possession He left his home as he usually did when going to his store after breakfast—he had made no preparation of clothing or otherwise for a journey. Many little domestic plans and enterprises were left unfinished, and altogether his absence is most unaccountable.

TOLERANT—We find the following sentence in a leading editorial article of the Richmond, Va., *Whig*—

"It was a great error, not to say an unpardonable crime, in the Pierce and Forney administration to appoint an individual from a free State Governor of Kansas."

A marriage in high life took place Monday last at Washington City. Mr. G. DeBoffbau, Secretary to the French Legation, led to the altar Miss Susan, youngest daughter of Colonel Thomas Hart Benton, of Missouri. A splendid entertainment was given the bridal party, at the residence of Col J. C. Fremont.

Never did the wheat crop of Kenosha county look more propitious than now Every thing now indicates and abundant harvest; and from the quantity sown, there will be undoubtedly more wheat in this coming Autumn, than there ever was before.—Kenosha Democrat June 9

RHODES'
FEVER AND AGUE CURE,
OR,
Nature's Infallible Specific.

FOR the Preventive and Cure of Chills and Fever, Intermittent Fever, Dumb Ague, Chill and Fever, Lumb Ague, General Debility &c. Remittent Fever, Bilious Fever, Pleurisy, Inflammation of the Lungs, and all other forms of disease originating in the Western Country or Malaria. This subtle and delicate poison which at certain seasons of the year fills the air, every breath, is the active principle which this remedy is designed to destroy and entirely eradicate from the system. Let it be borne in mind that this remedy is not a mere quack nostrum, but is the result of many years of careful study and experiment, and is offered to the public as a

NATURAL ANTIDOTE TO MALARIA.

It will positively prevent any one from contracting the disease on the most sickly or swampy localities by only taking a dose or two in the morning, before going out. It will immediately check the Ague in persons who have suffered any length of time from one to twenty years, and will never have another return by continuing the use according to directions.

It will immediately relieve all Chronic cases of Chills and Fever or Ague, such as general debility, night sweats &c. The patient at once begins to recover appetite and has strength and continues until a permanent and radical cure is effected.

Finally, in case will Rhodes' Fever and Ague Cure fail to cure all classes. Farmers and all laboring men by adopting it as a preventative will never feel Ague or Bilious attacks. One bottle will last a year which while it is the most sickly is the most valuable time to them.

50 cts or two bottles will be sewer for ordinary cases, some may require more

Directions printed in German French and Spanish accompany each bottle

Liberal discounts made to the trade. Orders for Rhodes forwarded to any part of the country, and the same will be consigned on liberal terms to responsible parties in every section of the country

EVARTS'
Patent Shingle Mill.

EVARTS & BUTLER,
PROPRIETORS AND MANUFACTURERS,
CHICAGO, ILLINOIS

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood

The ease with which wood is worked in that direction gives it speed of execution, and the flexibility of the shingle with the fibres of the saw, so that it may be ground thin on an edge, so as to cut away but little of the wood

Also shingles now made with this mill sell in this market seventy five cents per thousand higher than any other sawed shingles

This mill is made entirely of iron—strong, simple and of the least possible ...ship, easily worked, and not liable to get out of order

Valuable Invention!
IMPORTANT TESTIMONY IN ITS FAVOR.
FLOUR INSPECTOR'S OFFICE,
Philadelphia, April 30th, 1855
MESSRS EDWIN AND JAMES M CLARK, Gentlemen—Having used the Stone for the purpose of creation, operation, and workmanship of your newly patented Comb and Grinding and Bolting or Merchant Flouring Mill, I take much pleasure in stating to you and the public with the following statement as the result of my investigation

With the French Burr Mill Stone thirty inches diameter, in ground and bolted from nine to twelve bushels of wheat per hour, making clean work, and at the same time cursing out at a single operation, extra flour, superfine flour, middlings and shorts, and superfine flour is of an excellent quality, and the yield per bushel is equal to the large classed common bolted mills of modern construction It occupies but little room, can be driven by a common size of 21 inch bands, by 4 feet, with, when in running order, with all the machinery complete, can be easily removed or transported from one place to another—has no complicated machinery about it, consequently is not liable to get out of order, and takes but little power, and appears to be particularly adapted to the wants of the condition of the country at large and from the cheapness of construction and small amount of capital requisite to start it, rapidly getting per hour a taken into consideration, while its portability, and adaptation to any power now in use, must lead this thing that long it will be successfully established in every section in this Union, if it does not entirely take the place of the old complicated machinery heretofore used

Yours truly, STEPHEN MILLER
Head Flour Inspector of Philadelphia

This valuable Mill can be seen in operation daily, at No 213 Arch street, next to the Theatre, Philadelphia, from 9 o'clock in the forenoon, until 4 o'clock P M, and from two o'clock in the afternoon, until four, by any one wishing to purchase County or state rights The patent will have to be sold in order to settle the estate of the late John and James M Clark, Ireland remaining in this city for some time, for the purpose of selling the entire United States County and States for sale.

Persons writing for information must enclose Stamp to pay return postage Je2-d1m

QUEEN'S PATENT

PORTABLE
FORGE
AND
BELLOWS!

THIS FORGE can be set where most convenient, in the fore room, and the smoke conducted to the Chimney by a Pipe

There are six sizes of Blacks mths, Coppersmiths, &c Farmers, and five sizes of Jewelers Dentists and Chemists It is compact—takes up but little room—is of superior construction—heats the iron in the quickest manner—the winds capes from the hot air chamber through several holes in the Tuyere cup, which being under the fire, prevents the Twiar from getting filled up with coal and ashes, as is all where there is but one opening For one door work and for safety in doors, this Forge has great advantages over others, having two blasts by which the Forge can be closely shut up, and for safety and many purposes in doors (particularly for Jewelers, Dentists and for chemical operations) all the fumes from charcoal and the bituminous coal are conducted through the smoke pipe, or when open they are entirely out of the way, It is also so constructed that no or water can find to the Bellows, which is in the cylinder under the fire bed

It is the best Forge for Contractors on Railroads, Public Works, (for making repairs on the same,) and for emigrants to construction, over or off the public, and are unexceptionally used by most of the first names, and also by the U S Army and Navy For sale by

BROTHER JONATHAN
COOK STOVE,

I have sold the B J for the past three years It has been thoroughly tested by thousands who will testify that it is the most complete Cook Stov that can be I have four sizes of B J There is a sunk air attachment to the stove which will make half difference less of the amount of fuel used in the Summer season and does away with all unnecessary heat in the kitchen other stoves make that have not that attachment The oven is much larger than any other stove of the same size furniture I warrant the stove to give complete satisfaction, if not, to be returned and money refunded I will refer you to hundreds of the citizens of Milwaukee that are using the above
